Hi, App Somnics  
Welcome to iNAP Lab+

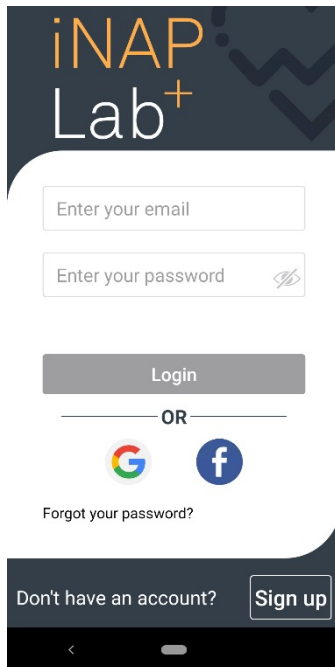

Continue

# Forgot Password

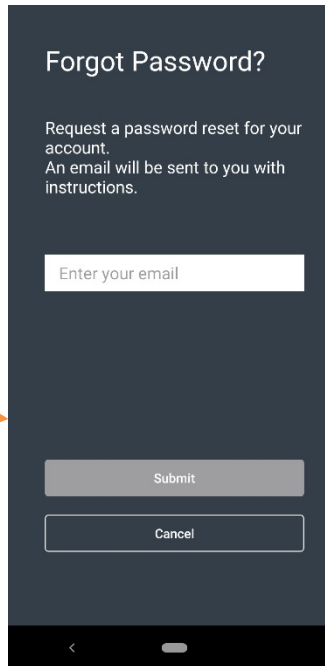

If you forget your password, just click “Forgot your password?”

Key in your account email and click “Submit”.

An email will support you to find your password.

The image shows the iNAP Lab+ login screen. At the top, the logo "iNAP Lab+" is displayed in orange and white. Below the logo are two input fields: "Enter your email" and "Enter your password" with a password icon. A grey "Login" button is positioned below the password field. Underneath the button is the text "OR" flanked by horizontal lines. Below this are the Google and Facebook social media icons. A link "Forgot your password?" is located below the icons. At the bottom of the screen, there is a "Sign up" button and the text "Don't have an account?". An orange arrow points from the "Forgot your password?" link to the next screen.

The image shows the "Forgot Password?" screen. At the top, the title "Forgot Password?" is displayed. Below the title, there is a message: "Request a password reset for your account. An email will be sent to you with instructions." Below the message is an input field labeled "Enter your email". At the bottom of the screen, there are two buttons: "Submit" and "Cancel".

# Home Page

Home page display treatment time and the sealing time of the last treatment.

## Results:

Treatment results.

## Device list:

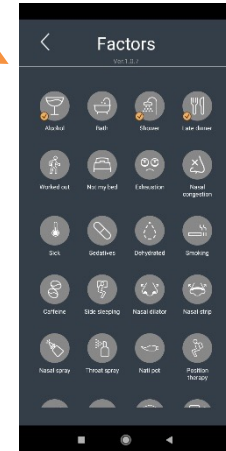

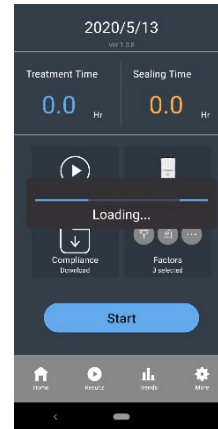

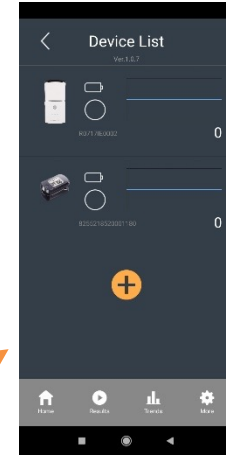

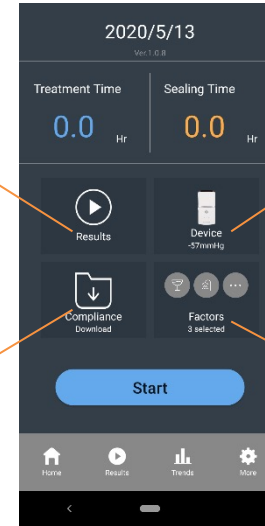

Check devices listing.

## Compliance Download:

Download compliance records from the iNAP device. Upload records to the cloud server and erase all records in the iNAP device.

## Factor:

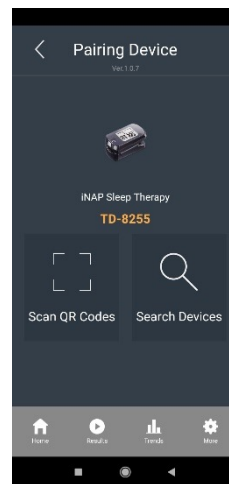

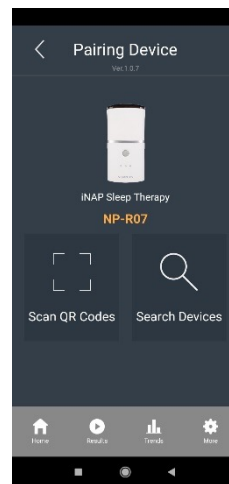

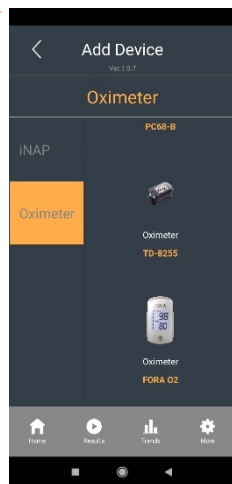

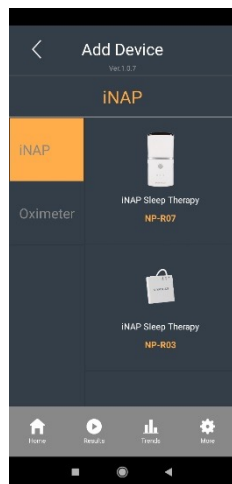

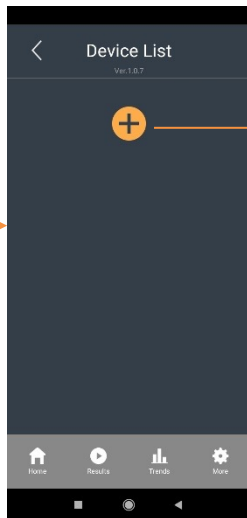

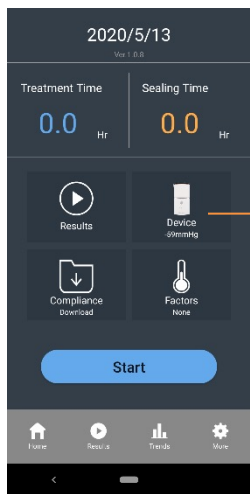

You can select multi factors according to record pre-use daily routine.

# Pair Device – Part 1

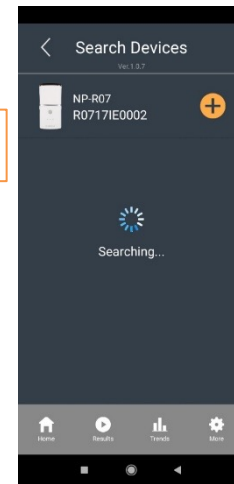

Add new device by scan QR code or select the device serial number from list by Bluetooth scan.

Click Scan QR Codes  
(Notice on next Page)

Click Search Devices

## Pair Device – Scan QRCode Notice

Please Scan the QRCode Which is named “iNAP xxx xxx System”

And have the Tag “SN”, means Serial Number

ex: R07xxxxxxx ,R03xxxxxxx

The Above one is not the Bluetooth Device, it is container,

So Scan the wrong QrCode will make you pairing fail.

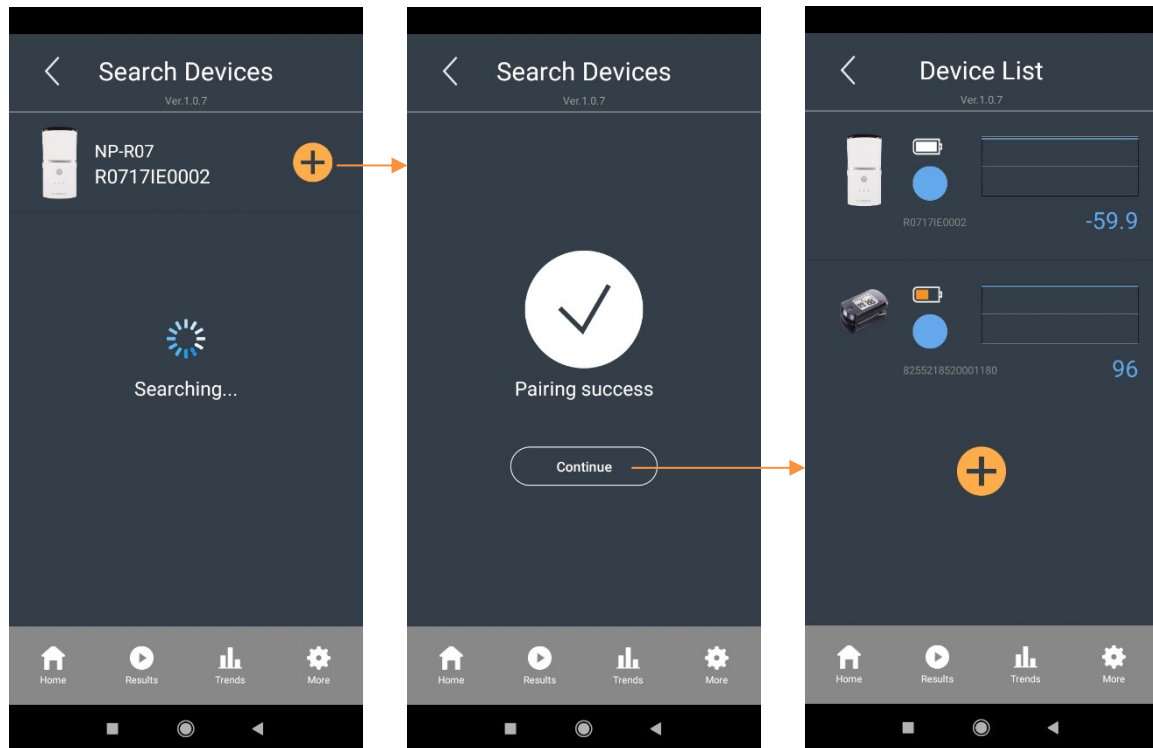

When You Scanning the QrCode and can't pair success with the device,

Maybe you can try to scan another QrCode.

## Pair Device – Part 2

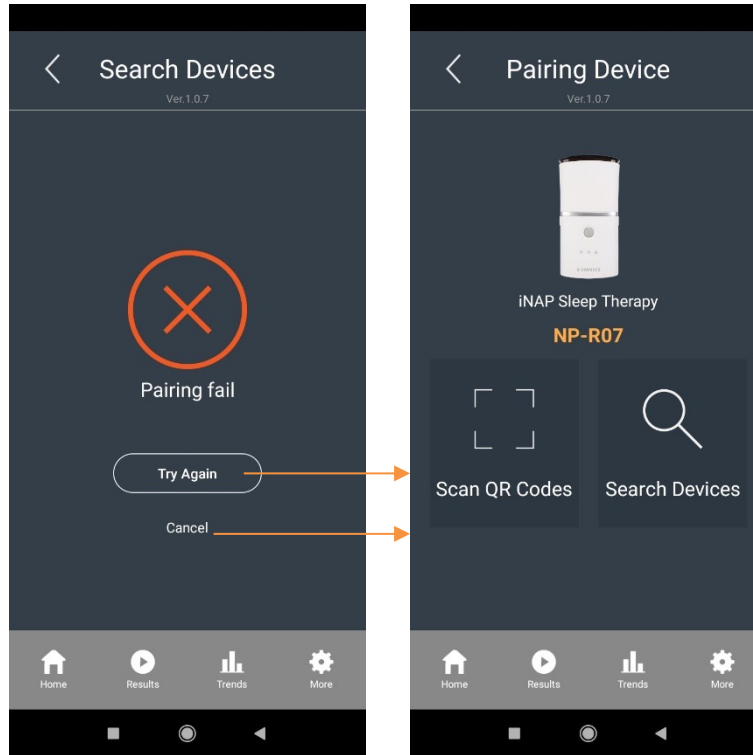

The serial number of device will be displayed on the scan list.

Choose the device. If pairing is successful, click “Continue” to complete the pairing.

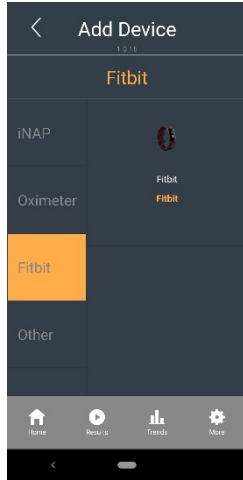

## Pair Device – Part 3

If the pairing failed, please  
retry or cancel.

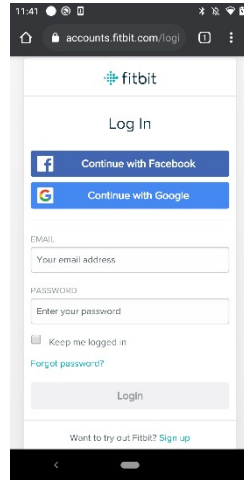

# Pair Device – Part 4

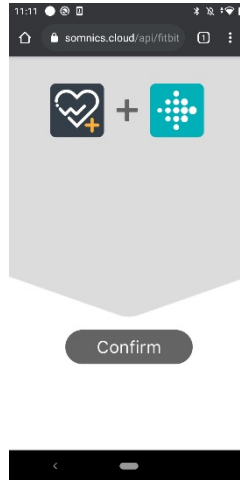

## Pairing Fitbit Device

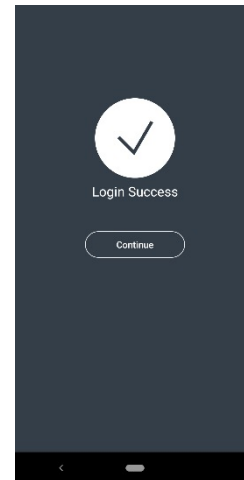

Choose Fitbit Device

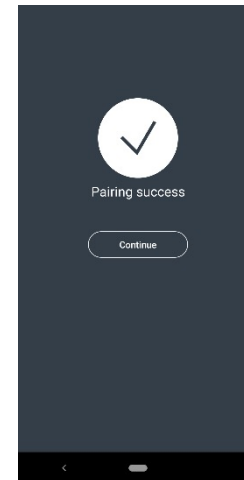

Login Your Fitbit Account

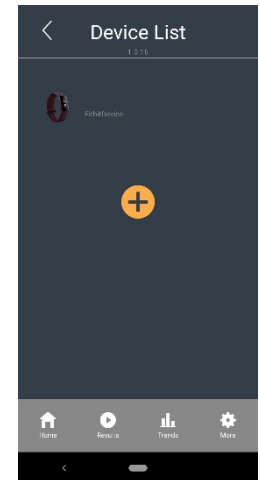

Confirm To Share  
Your Fitbit Data To  
iNAP Lab+

Login Success,  
Click Continue to  
pair your account

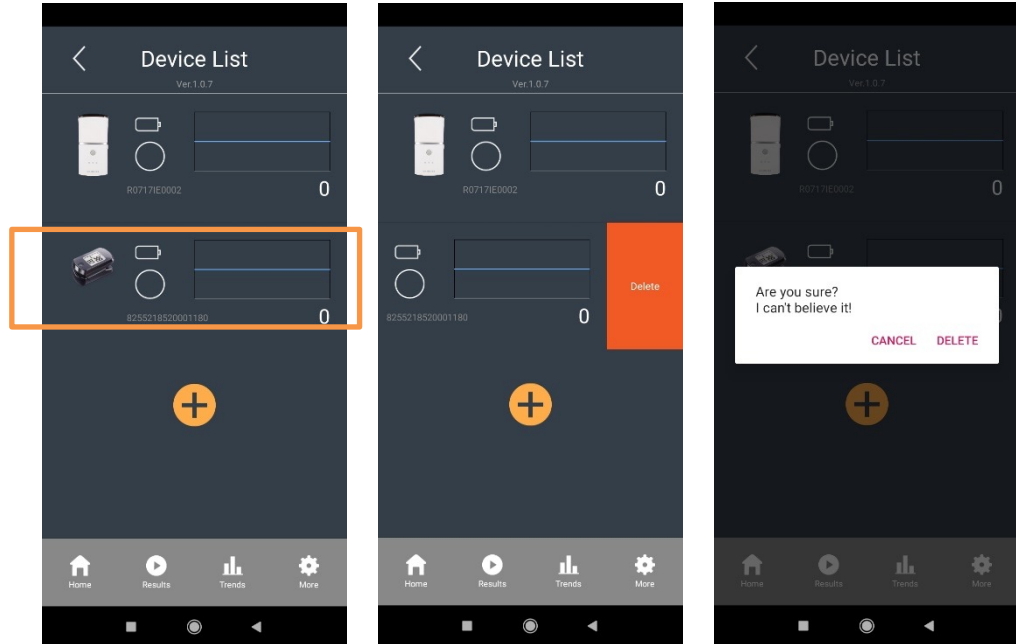

Pairing Success

Show Fitbit Device  
on Device List

# Device List

To delete a device from list,  
slide that device to the left.  
Click "Delete".
